Professional Summary:

Electronics Engineering graduate with experience in NOC operations, network monitoring, technical support, and customer service. Familiar with Linux/UNIX, Windows, networking, cybersecurity fundamentals, programming, and technical troubleshooting, seeking opportunities across IT and technical roles.

Technical Skills:

Systems & Networking:

- UNIX, Windows, NixOS, Bash, PowerShell, Active Directory, TCP/IP, DNS, DHCP, Subnetting, LAN/VLAN, SSH/Telnet

Programming & Development:

- C/C++, NextJS/TypeScript, Rust/Axum, Tailwind/CSS, PostgreSQL, SQLite, Python, Git

Embedded & Engineering:

- Arduino, Raspberry Pi, Embedded Systems, Schematic Reading, Electronic Soldering

Cybersecurity:

- Wireshark, Splunk, Suricata, IDS/IPS, EDR, SIEM, Firewalls, VPNs, OpenVAS, Metasploit, Enumeration, Vulnerability Finding, CTF

Tools & Platforms:

- SolarWinds, PuTTY, Cisco Packet Tracer, Salesforce, MatLab, GitHub, VS Code, Vim, VirtualBox, Virt-Manager

Experience:

Trainee Visa Officer

VFS GLOBAL – Abu Dhabi

February 2026 – Present
UAE

Process visa applications and supporting documentation in a high-volume, regulated environment using Salesforce and internal systems. Provide face-to-face service to a multicultural customer base while maintaining accuracy, confidentiality, procedures, and service standards, including value-added service presentations.

Network Operations Center Analyst Intern

Radius Telecom, Inc.

July 2024 - September 2024
Philippines

Provided first-line technical and customer support through calls and ticketing systems using Salesforce while monitoring network performance and outages through SolarWinds. Performed basic troubleshooting, fault isolation, and issue validation; accessed network devices via SSH/Telnet using PuTTY; assisted with network documentation; coordinated escalations and field engineer dispatches within an SLA-driven NOC.

Education:

Bachelor of Science in Electronics Engineering

Rizal Technological University

March 2019 – March 2025
Philippines

Certifications:

- Google Cybersecurity Certificate Coursera 2025
- IBM Ethical hacking with Open Source Tools Certificate Coursera 2025
